DETAILED ACTION

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claim 54 is rejected under 35 U.S.C. 102(b) as being anticipated by Wijay et al., 4,921,483.

Wijay discloses a catheter (Figure 3) comprising an outer layer (T) comprising an outer surface and an inner surface (column 7, line 7); a barrier layer (I) comprising an outer surface and an inner surface, (column 7, line 6); a proximal end; and a distal end (Figure 3); wherein the inner surface of the outer layer covers the outer surface of the barrier layer only at the distal end of the catheter (Figure 3.) (The inner surface of the outer layer covers the outer surface of the barrier layer only at the distal end of the catheter, as opposed to distal end as well as proximal end or proximal portion.)

Alternatively, the outer layer is (B) and the barrier layer is (I), (see Figure 3.)

Allowable Subject Matter

Claims 1-5, 8-24, 44, 47-53 and 55-74 are allowed.

Art Unit: 1641

Response to Arguments

Applicant's arguments with respect to claim 54 have been considered but are moot in view of the new ground(s) of rejection.
